Petition to the Legislative Assembly of Alberta, in the Legislature Assembled:

Whereas Albertans are entitled to safe medical facilities, including hospitals,

Whereas recent events at several health facilities have shown that the health of the public may be at risk,

Whereas the lack of province-wide inspections and enforcement of standards may contribute to the problem, and

Whereas the Provincial Government has refused to allow an independent and system-wide inquiry,

We, the undersigned residents of Alberta, petition the Legislative Assembly to urge the government to immediately establish a public inquiry into the failure of the health care system to protect the safety of patients in its care and to provide recommendations to correct the situation.
